WHITE HALL ACADEMY, TENN.

May 8th, 1880.

MR. EDITOR:—White Hall Academy is located four miles West of Madison in a rather broken part of Madison county, but notwithstanding this it is situated on a nice spot of ground and has good water, though rather inconvenient.

This Academy is very well attended for a country school. The writer has been located at this point ever since the 1st Monday in January and has had a liberal patronage all the while. In this school there are several young men of fine promise, who are progressing finely with their studies. They seem to be determined to acquire an education that will fit them for the highest positions and the most responsible stations in life. We are proud to say that this spirit is manifesting itself not only in this vicinity, but in nearly all communities. The cause of education cannot be too highly prized. Every effort should be made and every encouragement given to advance its interest and raise its standard on high that the condition of our country may be ameliorated both financially and religiously. Our present session will close on the 21st of this month. Friends of education in general are invited to attend. We have the promise that Dr. L. J. Burton will be with us and deliver the annual address. We would be pleased to meet with the editor of the BULLETIN and hear some words of encouragement from him on that occasion.

Success to you and your valuable paper.
B. T. RICHARDSON.

POCAHONTAS, TENN., May 4th, 1880.
MR. EDITOR:—We are having a very quiet, pleasant time at our little village. Am glad to say Pocahontas has her head above the waves once more. Of course I can write you nothing of business and crops, more than I know. Maj. Garrett is selling one dozen sticks of candy for 10 cents and his head clerk sells it cheaper than that.

Mr. G. W. Armstrong, of the Bulletin, addressed our people on the night of the 23rd of April, on "What Parents owe their children." It was quite a treat indeed, and we hope he will come again very soon, as it is pleasant to know we are occasionally remembered by such gentlemen as he, when we have been out of and from the whole world.

Our town was not represented at the Nashville Centennial, but some of us console ourselves with the fact "that if they live, will attend the next."

Miss Nannie Smith of your city is in our midst, and will take charge of the musical department in the Leath Academy. We extend to her a hearty welcome and wish her much success, and believe she will be an ornament to our society.

A Leap Year Ball is spoken of for this week. Miss Sheba Dodson is on the committee of arrangements, and that means success.

We have a Sabbath school now, and the people generally manifest considerable interest. Since the churches were destroyed, we have been deprived of a suitable place in which to hold any kind of religious service, but we now have free access to the School Building and we know how to appreciate such privileges, after being denied them so long. "Blessings brighten as they take their flight." Should this find room in your valuable sheet, I will try to do a great deal better next time. The Bulletin is a welcome visitor at our house once a week. Long may it live, and its every effort be crowned with success. SALLIE H. ROSSON.

TERRELL, TEXAS, May 6th, 1880.
MR. EDITOR:—If you will allow me space in your valuable paper, I will write a few lines from this part of the country.

We have quite a flourishing city only five years old and between 3500 and 4,000 inhabitants. The merchants of this place are now doing a thriving business and the stocks now carried are of a superior order.

The Sunday schools of this place will superintend the affairs of Grand Picnic next Saturday to be given in this place and we anticipate a lively day.

The land in the city and vicinity of Terrell has run up to an enormous price. It is held at from \$7 to \$75 per acre, according to situation and improvement and richness of the soil. There has been so much rain this Spring that the farmers are considerably behind with their farming operations. Corn and oats are looking fine. Wheat is thought to be seriously damaged by rust.

One of the most disastrous storms that ever visited this section of country came howling down last Wednesday night, blowing down houses and fences. The storm was genuine. The storm was general all over the State and much damage was done to the fruit and crops.

Two of my horses ran against a wire fence, one night last week and were badly cut up. One of them will not be able to work for several months. The health of the country is good. The greatest "boom" we have now is in 1, 2 and three year old yearlings and Rail Roads.

I hope to be able to visit old Hardean before many more Summers roll away.

Your paper is anxiously looked for and read with much interest by both subscriber and borrowers.

Yours truly, J. E. Cox.

Happily Disappointed.
Disappointments are frequently given to bear, but having received letters almost daily from parties who have been "happily disappointed" we relate their experience which will be profitable for every one to remember. Thousands have written to the proprietors of Kendall's Spavin Cure, stating that they began using it without any faith that it would cure spavins, but had been happily disappointed as it had completely cured the spavin and removed the bunion without blistering, and after using it for various purposes, said that they found it the very best liniment ever used for any lameness on horse or man. Taken in the Act.
Sister Jones called on Elder Smith a few evenings since. Being a next door neighbor she entered his study unannounced, and was greatly shocked at seeing him taking a drink from a suspicious looking bottle. He noticed her look of inquiry, and said, "This, Sister Jones, is Father's Portwine, or Vegetable Liver Powder, the only remedy I have ever found for the many troubles arising from a disordered Liver. I can recommend it." Price 50 cents. For Sale by all Druggists.

Wine is a mocker, strong drink is raging, and the man who is deceived thereby is not wise. Then look not upon the wine when it is brought and buy a bottle of "Brom-olife," the great Blood medicine. It cures Dyspepsia, cleanses the blood, regulates the Liver and tones up the whole system until the body is the smooth running machinery it was intended to be. Do not wait until your health is entirely broken by disease but get a bottle of this and you will have no reason to complain. Bromolife is put up in a large bottle with directions on each inside wrapper. Trial size free. Register inside wrapper. We have taken the same.
